

## Microbiological Samples and Free Chlorine Residual

Sample Location	Date of Sample	Sample Type 1.Routine 2.Repeat	Total Coliform Positive	E.coli Positive	Free Chlorine Residual (mg/l)	Population Served: <span style="border: 1px solid black; padding: 2px;">440</span>
						Number of microbiological monitoring samples required: <span style="border: 1px solid black; padding: 2px;">1</span>
213 Meter Pit	11/8/2023	1	N	N	0.7	Number of microbiological monitoring samples taken: <span style="border: 1px solid black; padding: 2px;">1</span>
						Did an M&R violation
						If "Yes," check reason (s) below
						<input type="checkbox"/> Actual number of samples is fewer than required.
						<input type="checkbox"/> Did not collect/analyze repeat sample.
						<input type="checkbox"/> Did not collect/analyze for E. coli for positive total coliform from routine/repeat sample.
						Did an MCL violation occur?
						If "Yes," check reason(s) below (see also Part 5, Table 6 for additional information).
						<input type="checkbox"/> For systems collecting less than 40 samples per month: two or more of the samples (routine and /or repeat) are positive for total coliform (= total coliform <u>MCL</u> violation).
						<input type="checkbox"/> For systems collecting 40 or more samples per month: more than 5% of the samples (routine and/or repeat) are positive for total coliform (= total coliform <u>MCL</u> violation).
						<input type="checkbox"/> The original sample was E.coli positive and at least 1 repeat sample was positive for total coliform ( = <u>E.coli MCL violation</u> ).
						Reminder: System must collect a minimum of five (5) routine microbiological monitoring samples during the month following a repeat sample collection.
						As required by 5-1.72, "Operation of a Public Water System," a copy of this form shall be sent to your local health department by the 10th calendar day of the next reporting period.

Sample Collector(s): Roy W.

Name of NYSDOH Certified Laboratory: Envirotest

Did any MCL violation occur? If so, please describe: No

Did an emergency or low pressure problem occur? Did source water bypass an existing treatment process in the system? If so, please explain.

No
