Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either “Yes” or “No”. If the answer to the initial question is “Yes”, complete the sub-questions that follow. If the answer to the initial question is “No”, proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

Name of Action or Project: Town of Marbletown Comprehensive Plan Update		
Project Location (describe, and attach a general location map): Townwide in the Town of Marbletown, Ulster County (see attached Town Location map)		
Brief Description of Proposed Action (include purpose or need): The Marbletown Town Plan was prepared and adopted in 2005. The Town Board determined that the 2005 Plan needed a periodic review, as recommended in the 2005 Plan, and was in need of updating. During 2023, the Town Board engaged in a review of the 2005 Plan and, after such review, determined that the 2005 Town Plan was still relevant but that several modifications to the Town Plan were required to address and update the continuing need for protection of natural and cultural resources and to consider new ways of providing for workforce housing that is needed by local emergency services providers, farm laborers, teachers, Town employees, young families, senior citizens and others on limited incomes. In 2023, Marbletown joined the Ulster County Housing Smart Communities program and explored other options available, as recommended by the Town Board appointed Housing Committee and the Town Planner. The amendments proposed to the 2005 Town Plan address the above two issues.

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]
Project : Adoption of 2024 Comp. Plan Update
Date : February 15, 2024

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “**Yes**” to a numbered question, please complete all the questions that follow in that section.
- If you answer “**No**” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form**Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance**

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

See the attached Part 3 Environmental Assessment Form for further information on the proposed action. See the 2024 Marbletown Town Plan Update for further information on the Plan.

Town Board of the Town of Marbletown as lead agency that:

☒ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Town of Marbletown

2024 Town Plan Update

SEQR Part 3 Full EAF Continuation Sheet

February 15, 2024, Revised March 14, 2024

Introduction

The proposed action consists of the adoption of Town Comprehensive Plan amendments to the Town's 2005 Town Plan. The Marbletown Town Board conducted a periodic review of the 2005 Plan as recommended in the Plan, and determined it was in need of updating. This process began in 2022.

In 2022, the Town Board adopted a Community Preservation Plan and established a Community Preservation Fund to protect Marbletown's community character, following voter approval of a referendum in accordance with the Hudson Valley Community Preservation Act. In 2022, the Town Board also appointed a Housing Committee to conduct research on the issue of housing affordability and to make recommendations to the Town Board. In March of 2023, the Housing Committee presented a number of recommendations for actions by the Town. The Town Board joined the Ulster County Housing Smart Communities program and began exploring the options available to address housing affordability in Marbletown.

During the Town Board's review of the 2005 Plan, the Town Board hired a professional planning consultant and determined that the 2005 Town Plan was still relevant but was in need of modifications to address and update the continuing need for protection of natural and cultural resources and to consider new ways of providing for housing that is both affordable and needed by local emergency services providers, farm laborers, teachers, Town employees, young families, senior citizens and others on limited incomes. The amendments proposed to the 2005 Town Plan, through a 2024 Update, primarily address the above two issues. Other changes proposed to the 2005 Town Plan include:

- Updated population and housing data from the 2020 US Census and other sources with important new data on the significant rise in housing costs since the 2005 Town Plan was adopted; this included a 2022 public opinion survey by the Town

Housing Committee which found that 80% of the respondents indicated there was: “Not enough adequate, affordable housing in Marbletown.”

- Updating the Plan’s Vision Statement with a new statement re-committing to the 2005 vision while recognizing a continuing need to balance Marbletown’s small-town rural character with protection of the town’s natural resources and the pressing need for affordable housing
- Committing to a review of housing and environmental initiatives sponsored by New York State and Ulster County
- Revisiting the Town’s existing Zoning law rules for affordable housing to determine if adjustments should be considered to increase the supply of such housing
- Focusing on the hamlets of Stone Ridge and High Falls to provide affordable living opportunities
- Reducing transportation costs for residents by continuing to support pedestrian and bicycle connections in the Town
- Updating the Town’s accomplishment in planning and zoning since 2005 including those addressing historic resources, natural resources, biodiversity, groundwater resources including drinking water sources, and resident priorities for preserving the Town’s community character
- Updating the measures taken for the 2024 Update to comply with Section 272-a of New York State Town Law regarding public engagement, review and adoption of comprehensive plans and comprehensive plan amendments
- Reinforcing the 2005 Town Plan’s policy to create: “Housing opportunities for the full economic range the Town's population should be provided in a form that is compatible with the scale and pattern of existing development.”
- Reinforcing the 2005 Town Plan’s policy to designate the hamlets of Stone Ridge and High Falls as the ideal locations for:
 - a. Enhancing affordable living for town residents because of the historic development patterns in place in those locations

- b. Availability of existing and planned infrastructure in the two hamlets to serve more compact living
 - c. The potential for providing for new sidewalks and trails to serve pedestrians and bicyclists in areas that already are served by non-motorized transportation
 - d. Continuing the scale and patterns of historic development established in the 1600's in Marbletown
- Strengthening the Town's conservation development and related rules to ensure that new development, in areas designated for low density residential, agriculture, and other open space uses, is designed and approved in a manner that is consistent with environmentally sound planning standards and guidelines

The above updates to the 2005 Town Plan are not expected to cause significant adverse impacts on the environment. This Part 3 EAF examines the potential environmental effects of the present action on Historic and Archaeological Resources identified in the Part 2 EAF question 10, the only impact category that was checked YES on the Part 2 EAF that involves environmental resources where a narrative environmental assessment is required and provided as follows:

Potential Environmental Impacts Discussion

This Part 3 EAF serves as an assessment of the potential for adverse environmental impacts on historic and archaeological resources and as documentation of the proposed 2024 Town Plan Update amendments. No attempt has been made, nor is it required at this time, to address actual impacts of construction activity related to any changes or updates to the proposed to the 2005 Town Plan. All applications for development approvals in the Town of Marbletown are subject to SEQR and both the Town Planning Board and Town Zoning Board of Appeals, as the two principal land use approval agencies in the Town, are generally responsible for ensuring that SEQR is adhered to when applications are filed.

10. Impact on Historic and Archeological Resources

- a. **The proposed action may occur wholly or partially within, or substantially contiguous to, any buildings, archaeological site or district which is listed on the National or State Register of Historical**

Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places.

Marbletown is the home of Stone Ridge's Main Street Historic District, the High Falls Historic District, and buildings, structures, and sites individually listed on the New York State Register of Historic Places and the National Register of Historic Places. Marbletown's place in the history of the nation, the state, and the county has been recognized by the register's designations. Marbletown already has an established policy (see 2005 Plan) that seeks to use: "All practicable means to protect these resources should be taken and these should likewise be addressed in development planning." The 2024 Plan Update reinforces this policy by the following proposed amendment: "All practicable means to protect these resources, such as use of the Community Preservation Fund, should be taken and these should likewise be addressed in development planning."

- b. The Town of Marbletown contains areas with the potential for yielding sensitive archaeological resources due to its history dating back to European settlements from the 1600's and Native American settlements dating back thousands of years. No construction activity is proposed nor is any authorized by the adoption of the 2024 Town Plan Update. No adverse impacts are expected as a result of the proposed action.
- c. **The proposed action may occur wholly or partially within, or substantially contiguous to, an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory.**

Future land disturbance activities in the Town in areas of archaeological sensitivity can be expected to be subject to archaeological assessments prior to approvals by the Town, County, or State as part of the protections in place by the State Environmental Quality Review Act and other laws. No adverse impacts are expected as a result of the proposed action.

No potentially significant adverse impacts were identified as a result of the Town Board's proposal to adopt an Update to the 2005 Town Plan through the 2024 Town Plan Update document.
